Purchasing or refinancing real estate is most likely your most expensive and important investment.

Protecting your investment with title insurance is a necessary step in both purchasing and refinancing.

I have been involved in virtually every aspect of the real estate industry throughout my 42 year career. Specifically I have spent significant time handling real estate sales, lending, property management, title closings and for the last twenty years I have dedicated myself to title insurance sales.

In addition to providing commercial and residential title insurance, I assist my clients with their transactions, provide and advise them regarding marketing objectives such as mailings and social media all in an effort to help them promote themselves and grow their businesses.

Surety Title Company is one of the largest and most respected title companies in New Jersey. We provide a multitude of services to our client real estate professionals. In addition to focusing on transactions in New Jersey and Pennsylvania we are capable of and experienced at handling real estate transactions throughout the country.

It is important to me to provide excellent service to every agent, lender, attorney or individual I work with by being available and responsive to questions or issues which may arise during a transaction.
