Bonnie Brooker

Bonnie Brooker Enterprises LLC

Hello, my name is Bonnie Brooker. My company is BBE. Our Advertising Specialty company's mission is to help our clients leave an impression with our branded specialty promotional products. We have been in this business since the late 90's and have earned rave reviews and awards for our products and outstanding service. We help our clients to stand out and to be remembered. BBE helps them to create a strong brand and message. BBE is family owned and operated and not affiliated with a franchise therefore we can offer extremely competitive prices and very creative products. My background is in graphic design and I bring that artistic background to my work at BBE. We go the extra mile to delight our clients every time. We are local and hands on every day for the best results. BBE works with suppliers around the US as well as companies overseas to offer the most diverse and interesting products. At BBE we are not just looking to make a sale, we want to form long lasting relationships and serve our clients with all their needs throughout the years. When they need us we are there. No job is too difficult or big for BBE.

We work with professional businesses, service industry, retail, non-profits, schools, teams, organizations large and small. If you have a logo and a message, we will help you to get it out there on one of our many products. Whether it's a pen, magnet, apparel, USB drive, Post-it Pads, water bottles or the newest techie items, we meet with you to brain storm so that we don't waste your time and then send you lots of ideas for you to consider. Our promotional products are perfect for trade shows, special events, client and employee gifts as well as golf outings, product launches, and new logo announcements. Anytime you need a branded item, we will make you a priority and help you and your brand shine.

We want to work with you and look forward to having a conversation with you to learn about your company. BBE is not like the rest for many reasons and we will show you this in all we do!
