**Diane Silberman**

**Owner, CLOTHES TO YOU**

I have been involved with fashion for over 30 years. I've had a passion for clothes forever. In 2005 I established my personal fashion consulting business, Clothes to You. I provide a service for women who are too busy to shop or just don't want to shop. I also have a clothing and accessory boutique in my home. Shopping in a comfortable atmosphere makes the shopping experience easier and fun. I can put outfits together, specialized for you. If I don't have what you need, I will shop for you to find it.

My goal has always remained the same, to help a woman find her "natural look", whether it's for business, casual or special occasion. I believe that if you look your best, you will feel your best, and you will be your best.
