

**Jayne Celeste**  
**JLC Designs- Interior Design & Home Staging**

As the owner of JLC Designs, Jayne Celeste is committed to making spaces that are beautiful yet functional for her clients. Jayne starts with personalized communication to truly understand her clients' goals and creates a vision using her artistic eye to achieve those goals. The end result is a harmonious space that aligns with the clients' personality, lifestyle, and budget.

For home staging, Jayne strives to implement reasonable changes for a big impact. From decluttering and depersonalizing, to rearranging furniture and integrating new pieces, Jayne accentuates the natural beauty of a home, creating an atmosphere that is fresh and inviting. The result is a home that potential home buyers cannot resist.

Jayne uses the skills she gained as a bedside nurse to be a stronger designer. She uses critical thinking skills to visualize spaces, solve problems, and improve functionality. Her experience in the areas of care and compassion help her to understand and implement her clients dreams.

“An interior is the natural projection of the soul”  
-Coco Chanel
