My name is Lisa Gambino; I am a Certified Computer Repair Technician (A+ CompTIA/MCP/Microsoft Certified Professional as well as a Certified Professional Secretary/Personal Assistant).

I graduated from the Sawyer Business School receiving certification as a Professional Secretary/Word Processor. Additionally, I attended Ocean County Vocational & Technical School for Computer Repair Technician certification & Ocean County College for Software. I hold credentials as a Certified Professional Secretary/Word Processor, as well as Certified Computer Repair Technician, along with Software Certifications from Microsoft and Adobe.

In addition to being a member of [South Jersey Women in Business](#), I am a member & past President of the Business and Professional Women of Southern Ocean County. I am very much interested in other such groups as well as networking and continuing education.

The name of my one-woman based business is A2Z Computer Help and it is your local source for personal computer repair, laptop repair, Apple/Mac repair/maintenance, data recovery, hardware/software installations, virus and spyware removal, wireless networking installations, website design, AI, digital photography, as well as training – to name a few top services; (I was an instructor for 3 semesters at Ocean County Vocational & Technical School for the Digital Photography Class).

Additionally, I am the Property Manager and Personal Assistant for an Entrepreneur in Monmouth County. (18+/years)

I enjoy being the “go-to” person for people who have been overwhelmed by the complexities of modern technology. My knowledge, patience, and courtesy have afforded me a loyal client base; I realize that the focus, which comes so easily to me, is almost a mystery to many.
