Shari Kantor

Medicare Insurance Advisor

Shari is a Medicare Advisor. For the last 30 years, Shari has worked in healthcare in the clinical sector, as well as the areas of marketing, sales, and operations. Most recently, Shari practiced Physical Therapy treating a large population of older adults with various conditions. During this time, she watched clients struggle with Medicare and the frustrations that would ensue. Navigating the complex Medicare landscape is challenging for even the most seasoned healthcare professionals. Shari empathized with her clients grappling with the system and decided to make a career out helping them navigate it.

Thus began Shari's profession as a Medicare Expert and Advisor. Her mission is to educate and guide people through their Medicare journey. She helps transition folks just turning 65, as well as Medicare veterans that require help managing their existing Supplemental and Prescription Drug Plans.

Shari earned her Master's in Exercise Science from Temple University and Allied Physical Therapy degree from Mercer County Community College. She is licensed to sell Medicare and other life and health insurance products in New Jersey, Pennsylvania, Texas, and West Virginia. She represents all Medicare carriers which gives her the ability to find the best plan to suit each individual client's needs.
